

Balloon Debate

Character:

- Your teacher will divide you into 4 groups.
- They may give your group a theme (e.g. historical figure, modern celebrity, world leader, someone you admire) or let you choose.
- Take some minutes to choose your character...

Situation:

You're aboard a hot air balloon with some other notable passengers. The balloon is losing height. The only way to save everyone is for one person to be thrown off...

Task:

Your job is to speak for 1-2 minutes to justify why you should be allowed to stay aboard the balloon.

You can think about your achievements, personality, what makes you special, etc. Anything that you think will persuade people that you should stay aboard!

You have 10-15 minutes to prepare your presentation...

Debate

- Your teacher will now pair your group with another. One group will present their reasons to be saved, and the other will be the audience. After, you will swap over.
- After the group has presented, the audience should ask the passengers follow-up questions, for example:
 - *Why is your character special?*
 - *What is the best thing about your character?*
 - *Can you give us more detail about X?*
- The audience will vote to decide which character was the most persuasive (or alternatively who should jump...).
