

Listening into Writing

Practice Paper A

THE LONDON SCHOOL
OF ECONOMICS AND
POLITICAL SCIENCE ■

Instructions

- You are going to hear a live lecture (20-25 minutes)
- You should listen to the lecture and take notes
- After the lecture, you will have 40 minutes to write a summary

Instructions

You have the following options:

- a) Do everything with pen and paper
- b) Write notes by hand but write the summary on your computer
- c) Do everything on your computer

Note: for the practice paper, we want you to practice using Digiexam so you have to choose option a) or b)

Instructions

There is paper on your desk. If you plan to use it, please complete the information on the front.

If you need more paper, ask a teacher.

EAP Presessional Course

Name: _____

LSE ID Number: _____

Circle the relevant section below (you can ask for more paper if required):

PAPER A	PAPER A	PAPER B	PAPER B
Notes	Summary	Notes	Essay

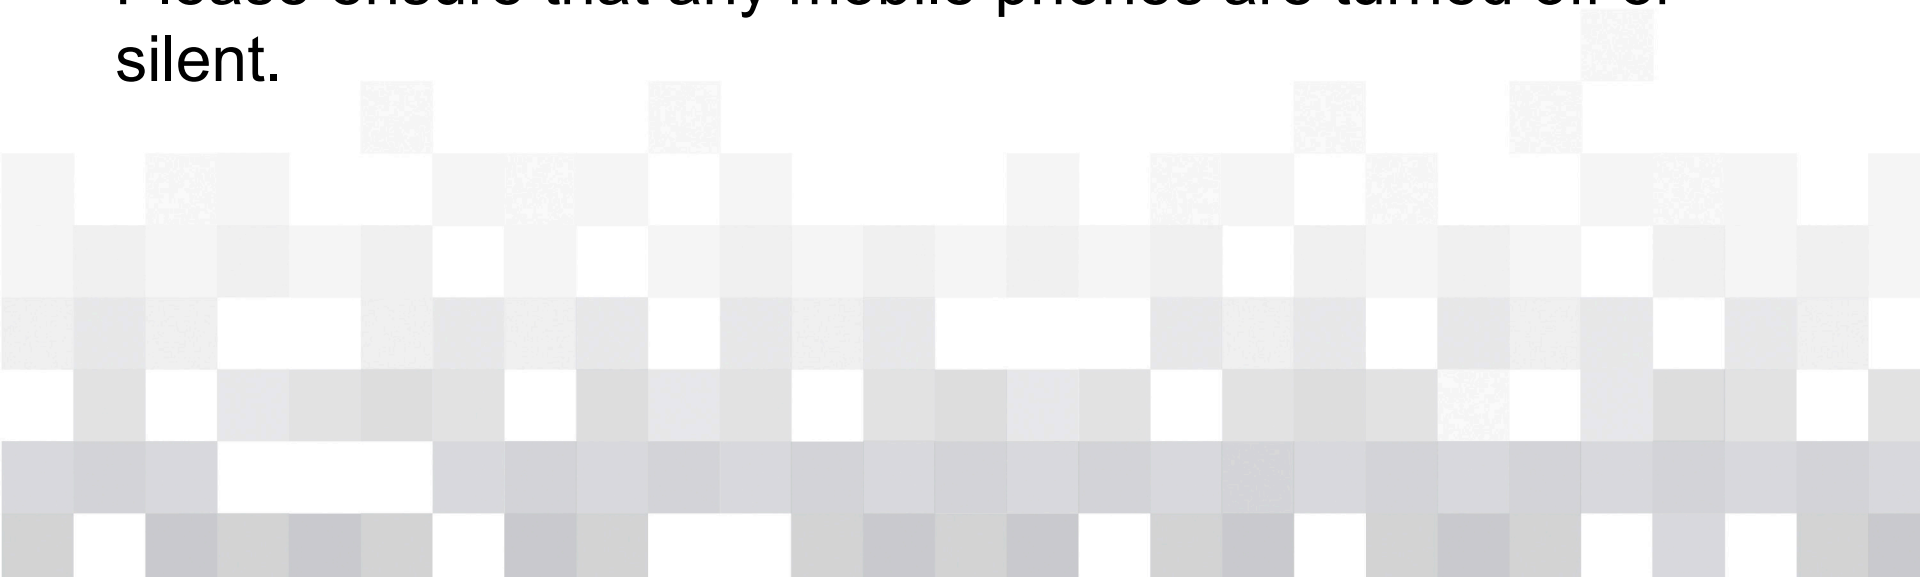

Instructions

You are only allowed one screen which must be 'locked down' with Digiexam.

Please put all other screens away.

Please ensure that any mobile phones are turned off or silent.

Some notes on Digiexam

- Please make sure you are connected to Eduroam, not to the Cloud
 - Please make sure that you have given the Digiexam app permission to read and/or write to external devices such as USB. By following these steps:
 1. Open System settings
 2. Privacy & Security
 3. Full disk access (turn on for Digiexam or add Digiexam with the little + sign at the bottom of the page)
- OR
4. Files and Folders (find Digiexam and turn on Removable Volumes)

Some notes on Digiexam

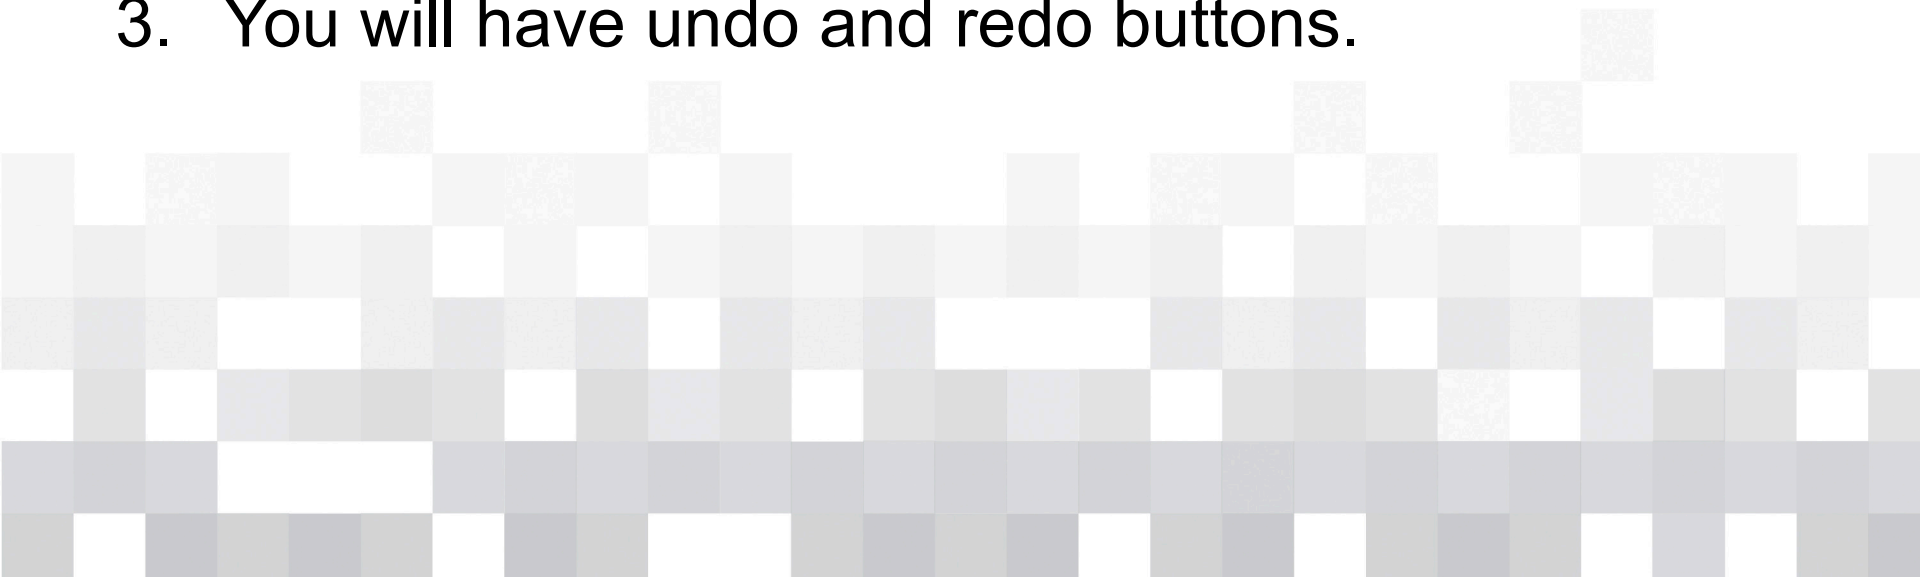

- You must close all other applications before opening Digiexam.
- Digiexam will force other applications close but this can take time and slow down accessing your exam.

Some notes on Digixam

1. Use copy and paste then delete behind you, do NOT use cut and paste.
2. You can go in and out of full screen mode.
3. You will have undo and redo buttons.

Some notes on Digiexam

- Digiexam saves your responses every 10 seconds.
- If you have any problems during the exam, let one of the teachers know.

Instructions

Open the Digiexam app following the instructions on the next slide.

Digiexam should already have been installed on your computer.

We will give you a 10-digit exam ID to enter.

**DO NOT CLOSE YOUR SCREEN AFTER YOU HAVE
DONE THIS**

Follow the steps below to log back into Digiexam:

DO NOT log in directly through the Digiexam app that appears on your desktop as it **will not** recognise your LSE log-in credentials.

1) Go to the [MyApps](#) page and click on the Digiexam icon. The Digiexam webpage will open.

Save this webpage as a bookmark.

2) Click on **Open Digiexam app** in the top right corner of the webpage.

Open Digiexam app

3) The Digiexam app will open, and you will be logged in automatically.

The screenshot displays the Digiexam app interface with three main sections:

- Find exam:** Includes an "Exam ID" input field, a "Find exam" button, and a "Start exam from USB" section with instructions and a "Select offline exam file..." button.
- Exams:** Features an "Active exams" section with a refresh icon and a "Demo exam" section with a description and a "Demo Exam" button.
- Exam details:** Shows "Practice Exam" details, including "Created by", "Organization", "Lockdown mode", and "Status".

Soft Paternalism - Nudge

Mike McGarvey

THE LONDON SCHOOL
OF ECONOMICS AND
POLITICAL SCIENCE ■

Tensions

When should the state regulate the behaviour of the individual?

How should this be achieved?

Possibilities for control

‘Think’?

‘Shove’?

‘Nudge’?

A decorative pattern of light gray and white squares, resembling a pixelated or mosaic effect, located at the bottom of the slide.

Paternalism / Soft Paternalism

This can be defined as the attitude (of a person or a government) that subordinates should be controlled in a fatherly way for their own good

The "**hard**" paternalism says, We know what's best for you, and we'll force you to do it.

By contrast, **soft paternalism** says, You know what's best for you, and we'll help you to do

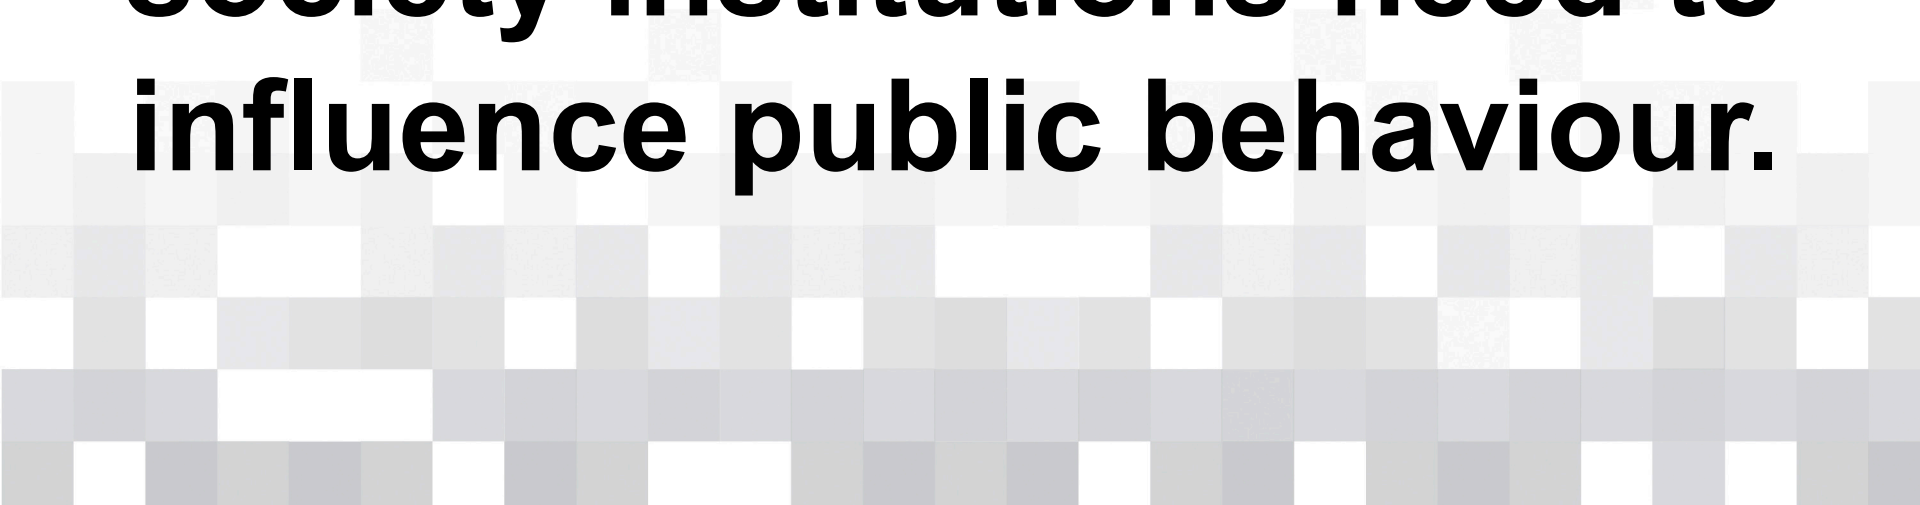

Conceptual Framework

Traditional economics holds that humans, as rational beings, make choices to maximise their welfare.

Behavioural economics meanwhile relies on cognitive-psychology research to relax those assumptions, teaching instead that humans have “bounded rationality” and so make biased decisions that sometimes run counter to their best interests’. So, a discrepancy between actions and interests.

Social policy....If we are to pursue sustainability, government and civil society institutions need to influence public behaviour.

A decorative graphic at the bottom of the slide featuring a checkerboard pattern of light gray and white squares, with some squares missing or faded to create a textured effect.

Introduction to writers

In 2008 Richard Thaler and Cass Sunstein published a book entitled *Nudge: Improving Decisions About Health, Wealth, and Happiness*

Thaler and Sunstein expound a theory of **LIBERTARIAN PATERNALISM**. Key concept of behavioural interventions

They believe it is legitimate for governments to design environments and contexts the “**choice architecture**” in which people make decisions in order to make it easier for them to maximise their wellbeing.

Writers /Choice Architecture

Research to suggest that positive and supportive messages of change are more effective than those which seek to shock and patronise.

As such, a 'nudge' entails 'any aspect of the choice architecture that alters people's behaviour in a predictable way without forbidding any options or significantly changing their economic incentives' .

Choice architecture 'should be unobtrusive and not entail compulsion'.

Features

Based on the concept of ‘interventions’

Assumption of automated nature of the human condition

Criticisms of Nudge

- Manipulative
- Subliminal mind control
- Patronising/Condescending
- Slippery slope?
- Nudge assumes an imperfection
- Violates spheres of integrity and autonomy
- Does it bring about sustained change?

Response to criticism

- No such thing as neutral design
- Some agent must provide starting points
- Either hope for the best, or take what you know about design programmes that are helpful
- Need to take a societal view

How does the government use Nudge?

- Health
- Donating
- Protecting the environment
- Changing civic behaviour

Contention

England could move to 'opt out' organ donation system, Downing Street says

The Government is monitoring the results of changes in Scotland and Wales

EXAMPLE 1 SMOKING

Smoking Nudge

- Make non-smoking more visible through mass media campaigns communicating that the majority do not smoke and the majority of smokers want to stop
- Reduce cues for smoking by keeping cigarettes, lighters and ashtrays out of sight

Smoking Regulation

- Ban smoking in public places
- Increase the price of cigarettes

EXAMPLE 2 ALCOHOL

Alcohol Nudge

- Serve drinks in smaller glasses
- Make lower alcohol consumption more visible through highlighting in mass media campaigns that the majority do not drink to excess

Alcohol Regulation

- Regulate pricing through duty or minimum pricing per unit
- Raise the minimum age for the purchase of alcohol

EXAMPLE 3 DIET

Diet Nudge

- Designate sections of supermarket trolleys for fruit and vegetables
- Make salad rather than chips the default side order

Diet Regulation

- Restrict food advertising in the media directed at children

MINDSPACE FRAMEWORK

Messenger We are heavily influenced by who communicates information

Incentives Our responses to incentives are shaped by predictable mental shortcuts such as strongly avoiding losses

Norms We are strongly influenced by what others do

Defaults We 'go with the flow' of pre-set options

Salience Our attention is drawn to what is novel and might seem relevant to us

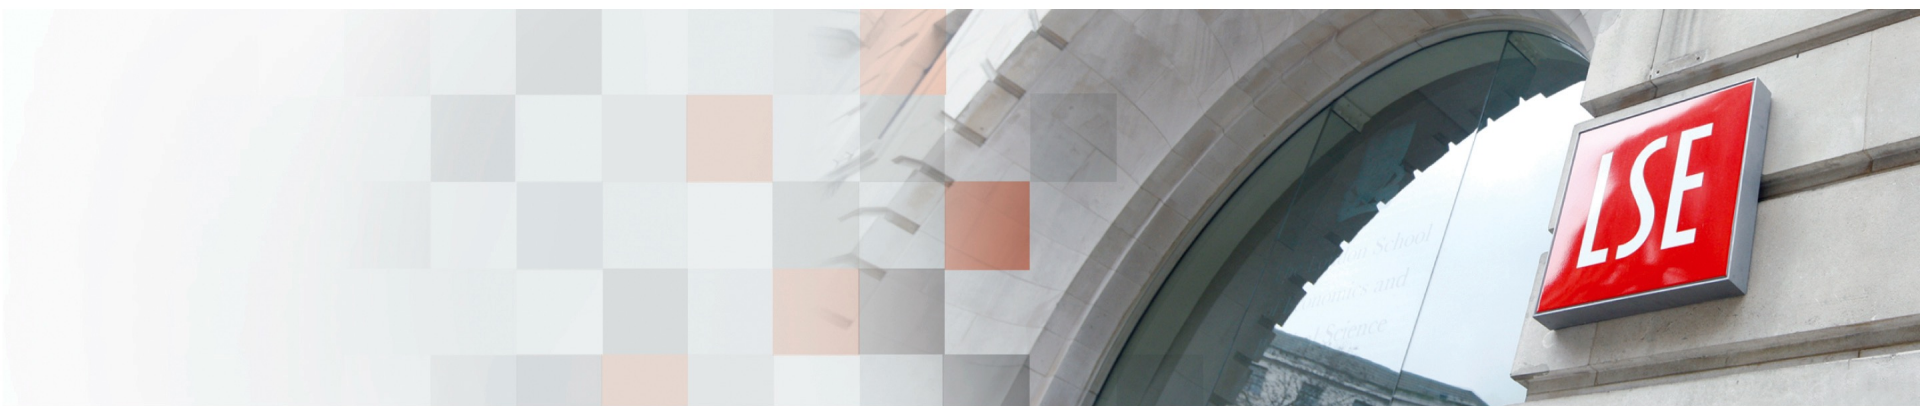

Priming Our acts are often influenced by sub-conscious cues

Affect Our emotional associations can powerfully shape our actions

Commitment We seek to be consistent with our public promises and reciprocate acts

Ego We act in ways that make us feel better about ourselves

End of Lecture

THE LONDON SCHOOL
OF ECONOMICS AND
POLITICAL SCIENCE ■

Summary

You now have 40 minutes to write your summary.

In your summary, you should refer to 'the speaker' or 'the lecturer'.
