

Social Media

THE LONDON SCHOOL
OF ECONOMICS AND
POLITICAL SCIENCE ■

How has social media benefited society?

What are some of the dangers of social media?

What measures can be taken to reduce the negative impacts of social media?

Social Media – Discussion Questions

1. How has social media influenced the way people communicate and form relationships?
2. Do you think social media is addictive? Why/Why not?
3. Should children be banned from using social media?
4. Do you think social media has a positive impact on your life? Would you have preferred to live before social media was invented?
5. How has social media changed the way people consume news and information?

Gender

THE LONDON SCHOOL
OF ECONOMICS AND
POLITICAL SCIENCE ■

What are the gender norms in your country?

Do you think gender norms are changing?
If so, how?

Is gender equality important? Why/Why not?

Gender – Discussion Questions

1. What is 'gender stereotyping' and what impacts does it have?
2. A YouGov Poll found that only 34% of women in the UK said 'yes' when asked if they were a feminist. Why do you think this is?
3. Should public and private organisations aim for 50% of their staff to be female? If so, how?
4. At LSE, 76.6% of the professors are male. Why do you think this is? Do you think it is a problem?
5. In the UK, almost 8 in 10 companies pay their male employees more than their female employees. Why do you think this is and what could be done about it?

Demographics

THE LONDON SCHOOL
OF ECONOMICS AND
POLITICAL SCIENCE ■

Since the 1960s, the world's population has doubled. Should we be worried?

By the middle of this century, there will be more people over 60 than under 14. What impact will this have?

How can (should) governments react to
falling fertility rates?

Demographics – Discussion Questions

1. What, if any, challenges does your country face in terms of population?
2. Is it wrong for couples to have more than two children? Why/Why not?
3. Italy has Europe's lowest birth rates and is said to be heading for a demographic crisis. What can be done about this?
4. Would you rather live in a country where most of the population are over 65 or where most of the population are under 10?
5. Canada had record population growth last year: 96 percent of which was due to immigration. What are the advantages and disadvantages of migration?

Climate Change

THE LONDON SCHOOL
OF ECONOMICS AND
POLITICAL SCIENCE ■

What are some of the causes and consequences of climate change?

In your opinion, who holds the greatest responsibility for addressing climate change: governments, corporations or individuals?

What obstacles might prevent effective climate action, and how could these be overcome?

Climate Change – Discussion Questions

1. Why is climate change considered one of the most pressing issues of our time? What evidence supports this claim?
2. Why is the scientific consensus on climate change (e.g., 97% agreement among climate scientists) often misunderstood or ignored by the public?
3. How does misinformation about climate change spread, and why is it so effective?
4. Why is climate change considered a "collective action problem"? What barriers prevent meaningful action?
5. What role should scientists, educators, and media play in combating climate disinformation?
